S25 IP Outdoor Station

Smart Intercom

The Radiant S25 IP Outdoor Station is a professional-grade intercom featuring a 4.3-inch colorful LCD screen, touch buttons, and secure multi-way access via IC card and PIN code.

Overview

Designed for outdoor security and access control, the Radiant S25 IP Outdoor Station combines a durable aluminum and tempered glass panel with an IK07 impact rating and IP54 weather protection. It runs on an embedded Linux system and features a 4.3-inch capacitive touch screen. Equipped with a 2.0-megapixel camera with white light compensation, G.711 audio encoding, and versatile connectivity including TCP/IP and an RJ45 port, it supports remote web configuration, card capacities up to 15,000 users, and flush mounting installation

Key features

- Professional design featuring an aluminum panel and tempered glass construction with an IK07 impact rating.
- 4.3-inch colorful LCD screen with capacitive touch buttons.
