M10 AC Thermostat Control Switch

Smart Switch

The M10 AC Thermostat Control Switch features a premium metal design, intuitive rotary temperature control and Zigbee connectivity, providing convenient smart temperature management for modern homes and buildings.

Overview

Designed for intelligent climate control, the M10 AC Thermostat Control Switch combines a sleek metal finish with user-friendly rotary operation. Supporting Zigbee communication and an AC 100–240V power supply, it offers seamless integration with smart home automation systems. Its compact design and ergonomic 16mm control knob make it a stylish and practical solution for modern interiors.

Key features

- Minimalist Design: Sleek and contemporary appearance to complement modern interiors.
- Premium Craftsmanship: Durable metal construction with an elegant finish.
- Intuitive Temperature Control: Ergonomic rotary knob for convenient temperature adjustment.
- Smart Connectivity: Zigbee wireless communication for smart home integration.
- Wide Power Compatibility: Supports AC 100–240V power supply.
- Compact Design: Standard 86 × 86mm panel dimensions for wall installation.

Specifications

Specification	Details
Product Series	M10
Product Model	AC Thermostat Control Switch
Control Function	Temperature Control
Communication Protocol	Zigbee
Power Supply	AC 100–240V
Dimensions	86 × 86 × 36mm
Knob Height	16mm

Material	Metal
Installation	Wall-mounted

Ordering information

Part Code	Product Description
RD310100	M10 AC Thermostat Control Switch – Zigbee-enabled temperature controller with rotary knob, AC 100–240V power supply, dimensions: 86 × 86 × 36mm, knob height: 16mm, metal construction.
